With streamlining our perspective to focus on our approach and methodology, LIAP has been more effective in achieving outcomes that will aid in fruition of our vision **"to see a world living in unity through love."** We are not providing multiple services; we are providing one service that is multifaceted.

We are providing education with an end goal to help individuals obtain personal fulfillment and establish meaningful interconnections (relationships). We understand the value of relationships, relationship with self, and with others. Simply put, we have an approach where everyone brings something to the table while focusing on the things that connect us.

Year 2021, we are looking to make an even a greater impact! We would like to leverage technology to broaden our reach, continue to furnish content that promotes greater self-awareness and intercultural fluency as well as obtain a physical location for continuous education.

As you can see, we are committed to our mission.

Would you support our cause?

Yes, I'd love to help
