

# HEALING, FORWARD.

Visit our site

## What an interesting first week of 2021?

Understandably, the emotions are high and varied regarding the Washington DC Riot and Protest that took place around 1:00 PM on January 6, 2021, lasting approximately 90 Minutes. Even through the chaos and the noise, we are relieved to see a desire for a positive solution and outcome.

Over the last 48 hours, [Love Is A Parable has been privileged to be on WRAL to discuss the double standards regarding law enforcement and the perspective of rioting versus protesting.](#) Also, we have been asked to partner with other organizations to begin the much-needed discussion on **healing forward**, together.

### Love Advocate,

As we begin to have discussions centered on togetherness, we must look past surface, gimmicky, and unserviceable tactics. Now, is time to provide a working approach and methodology that furnishes solutions and compliment the fluidity of humaneness. Currently, we are facing two pandemics, both of disease and plaquing humanity, but only one that deals with the matters of the heart. We are challenged with a huge love-deficiency that has caused our value systems to fall off-kilter. Let's restore balance.

It is our hope as we begin conversations of healing and togetherness, that you and/or your organization would consider Love Is A Parable. It is important to note, we bring nearly 20 years of andragogy experience and a decade of behavioral health and health care management experience. In addition to bringing much-needed programs to the community, we bring assurance in knowing the level of expertise utilized. We pride ourselves in providing life-changing, practical deliverable content that is relevant and relational. As we assess our discussion choices, let's embrace the words of Cindy Leive made on January 8, 2018:

***"We are linked instead of ranked."***

Reach out to us today, to develop a custom approach to your **bridging-the-gap** needs. Join us, it is time for healing forward.
